

## **Christopher M. Balz for U.S. Secretary of Agriculture**

### ***Why I Am the Best Choice***

1. Have always fought the crooked scheme to poison our food and destroy our soils!
2. Will allow innovation in Ag to explode by enforcing honest testing of toxicity, incentivizing new technology!
3. Will stand up for our fundamental property rights and right of ownership by reversing regulations that allow Monsanto and the like to trample farmers underfoot!
4. Will clean up crooked government favoritism in Ag research grants.
5. Will use my extensive farming and software engineering background to encourage the use of computer modeling to advance agriculture.
6. As a lifetime member of the NRA, will defend farmers' right to defend their property and equipment.
7. Backed by eight solid years of innovation and production in farm-fresh produce and genetically-diverse farmers' planting seed.
8. Trained by the very best pioneers of the organic agriculture industry.
